

With Jesus Christ as our inspiration and guide, we are called to provide high-quality Catholic education in the Diocese of Bathurst'

STUDENT ACCEPTABLE USE OF TECHNOLOGY POLICY

1. Mission and Values

In partnership with the family, parish and community, our schools nurture a relationship with God in Christ Jesus, celebrate and share the Catholic faith, and educate to enable all to make a positive contribution to the world.

We are therefore committed to:

- a safe, inclusive and professional learning environment
- just and right relationships that recognise and respect the dignity of each individual
- recognition of the diverse needs of learners
- the use of a variety of methods, technologies, and techniques to enhance learning and teaching

2. Purpose

The purpose of this policy is to clarify the agreed practices at Catholic Education Diocese of Bathurst (CEDB) in relation to Student Acceptable Use of Technology.

This policy informs parents and students of CEDB and school's expectations when students are using devices and services provided by CEDB at school, at home, or any time they are using them. The use of devices and services are provided to support students and staff in educational and administration areas. As such CEDB acknowledges that it has a responsibility to provide safe and secure online services.

3. Expectations

It is expected that all staff, community and students at CEDB and in CEDB schools will adhere to the scope and procedures outlined in this document as these are the agreed practices of the CEDB. A local policy is not required. It is expected that schools will develop and clarify their school specific practices.

CEDB Responsibilities are to:

- provide a filtered internet service which acknowledges that full protection from inappropriate content can never be guaranteed
- support the safe and responsible use of Technology in schools

CEDB reserves the right to capture, store and review all online activity and content created or accessed via school provided services. Such material is the property of the school and CEDB. School owned or personal devices may be accessed where there is a reasonable belief that:

- there has been or may be a breach of the school rules or policy
- there may be a threat of harm to a student or others or system security.

Principal Responsibilities are to:

- ensure all staff are trained in the importance of digital citizenship, online privacy, intellectual property and copyright
- establish clear protocols and procedures when working in online spaces including reviewing and considering the safety and appropriateness of online tools and communities
- respond to issues or incidents that have the potential to impact student wellbeing including those reported through online services (support is offered by CEDB to assist with reporting requirements)
- ensure all staff and students are aware of and adhere to the Acceptable Use of Technology Policy
- ensure Acceptable Use of Technology Agreement is completed annually by students and parents
- develop and implement school specific procedures to ensure adherence to the Policy and the recording of breaches of this policy
- provide students and parents with clear information regarding Acceptable Use of Technology and the consequences of non-adherence.

Staff Responsibilities are to:

- maintain a contemporary knowledge of digital citizenship
- be aware of and adhere to the Acceptable Use of Technology Policy
- ensure students use technology only after agreeing to the Policy
- implement school procedures and adherence to the Policy
- supervise and support students when using digital technologies within the classroom
- not share their CEDB accounts and details with others
- behave in a legal, professional and ethical manner when using digital devices
- alert the Principal or supervisor if there is cause for concern related to the Acceptable Use of Technology Policy
- instruct students on correct ways to handle ICT devices and associated peripherals (such as power cords and carry cases)
- only interact with students on social media networks in the context of a formal learning exercise for which parents have previously given permission.
- only use approved communication channels when communicating regarding students.

Student Responsibilities are to:

- understand and adhere to the Acceptable Use of Technology Policy and related school procedures
- sign the Acceptable Use of Technology Agreement annually
- inform a teacher or a trusted adult if there is cause for concern related to the Policy
- handle ICT devices appropriately and with care and notifying a teacher of any damage or required attention
- keep devices safe and secure from damage
- only use the Internet within the CEDB provided filtering system at school
- not share their personal accounts and details with others
- behave in an ethical manner when using digital devices
- ensure interaction on social media networks at school is in the context of a formal learning exercise
- report lost or stolen devices and immediately change passwords
- adhere to school BYOD Policy and procedures.

Students whose actions contradict this policy will be subject to the school's Pastoral Care and Student Welfare and Discipline and Anti-Bullying Policies. This may include the withdrawal of access to services. Unacceptable material will be supplied to the NSW Police and/or other relevant agency (e.g. Family & Community Services etc). Complaints of unacceptable use of technology by students to harass, bully, intimidate, or discriminate against other students, may also be referred to the Police, Office of the Children's eSafety Commissioner and/or Office of Children's Guardian and/or FACS.

Parent Responsibilities are to:

- discuss the Acceptable Use of Technology Agreement with their child/ren and ensure they understand the scope of the agreed practices
- sign the Acceptable Use of Technology Agreement annually
- inform the Principal, executive staff or a staff member if there is cause for concern related to the Policy or Acceptable Use of Technology Agreement.

4. Definitions and Key Policy Items

Acceptable Use of Technology Agreement: A signed agreement between the student, parent and school about behaviour deemed appropriate whilst using CEDB devices and/or services.

BYOD/BYODD/BYOT: Bring Your Own Device (Designated Device or Technology) is a program whereby students are permitted to bring their own technology to school to participate and complete school assigned learning tasks. Please refer to the schools BYO Policy and Procedures.

Copyright: material users want to distribute or copy may be subject to copyright. This includes files users may wish to download, such as images, cartoons and music. Copyright material owned by other people must not be distributed or copied without the permission of the copyright owner, unless authorized. Please refer to Smartcopying website for the specific requirements.

Devices and Services: These include but are not limited to:

- personal and school owned devices (e.g. desktops, laptops, tablets, printers, scanners, cameras)
- mobile phones and student owned devices
- email and messaging services
- physical and cloud based storage (e.g. USB hard drives, memory cards, Google Drive, iCloud)
- internet, intranet
- social media sites (e.g. Facebook)
- video and photo sharing websites (e.g. YouTube)
- blogs or micro-blogs (e.g. Twitter)
- forums, discussion boards and groups (e.g. Google groups)
- wikis (e.g. Wikipedia)
- vod and podcasts
- video conferences and web conferences
- software and software subscriptions

Educational Platforms: are an integrated set of interactive online services that provide the teachers, students, parents and/or others involved in education with information, tools and resources to support and enhance educational activities.

Email and Messaging: is the technologies and infrastructure used to transfer messages, including email, instant messaging and peer-to-peer file exchange;

- email is a tool for communications
- users have a responsibility to use in an efficient, effective, ethical and lawful manner
- email is inherently not secure, and sensitive or confidential material should not be sent through the electronic mail system unless it is encrypted
- all hardware, software, files/documents, email attachments and messages, email and Internet accounts maintained on the school or CEDB systems are the property of CEDB.

ICT: Information and Communication Technologies are a diverse set of technology tools and resources used to communicate, create, disseminate, store, and manage online information.

Intellectual Property: all email, work, images and documentation created by students as part of their educational work is subject to ownership and copyright. Users must not infringe the intellectual property rights of other people.

Internet: a global computer network providing a variety of information and communication facilities, consisting of interconnected networks using standardized communication protocols. The internet is an open network and is inherently not secure. Internet connectivity is provided for business and educational purposes, which users have a responsibility to use in an efficient, effective, ethical and lawful manner.

Media: are methods of mass communication and include visual, print, and electronic media. Examples might include but are not limited to films, DVDs, videos, games, YouTube, Images, Memes, ClickView, Ebooks etc. These are to be closely monitored and approved by the Principal to ensure that:

- copyright laws are observed
- material rated PG selected for viewing is suitable for the age of the students
- material rated 'R' is **not** to be shown to students under any circumstances
- material rated 'M' or 'MA' is only viewed after parents have been advised in writing and have had the opportunity to withdraw their child from the viewing
- materials are previewed by teachers prior to use and consider the suitability of the material in the educational and Catholic school context and the age and maturity of the intended audience.

Monitoring; the content and usage of devices and services may be examined by the CEDB or by an authorised third party on CEDB's behalf.

Parental consent: is granted annually for students to use CEDB and school devices and services through the Student Acceptable Use of Technology Agreement.

Privacy: must be considered in accordance with the Australian Privacy Act (1988).

School Owned Technology: This refers to items of technology which are purchased and maintained by the school or CEDB.

Technology: In the context of this policy, technology encompasses; Devices, Services and all connected networks managed or maintained by CEDB.

5. Resources

[Office of the Children's eSafety Commissioner \(https://www.esafety.gov.au/\)](https://www.esafety.gov.au/) is a Government driven initiative for online safety with the aim to help guide children and young people toward safe, enjoyable experiences online. The Office of the Children's eSafety Commissioner encourages behavioural change where Australian children and young people act responsibly online, just as they would offline.

[Stay Smartonline](#) is an Australian Government cyber security website that provides information for Australian internet users on simple steps that can be taken to protect their personal and financial information online. Its Digital Citizenship education program for Years 3-8 [Budd:e](#) provides activity lessons on cybersafety and includes games, videos, FAQs, learning outcomes and curriculum mapping.

[ThinkUKnow](#) is an internet safety program developed and delivered by the Australian Federal Police. It provides training and resources to parents, schools and other community organisations across Australia. Its Digital Citizenship education program provides three modules for early childhood, primary and secondary students.

[Bullying No Way!](#) is a website supported by the Australian Government and the Principals' Associations. It provides information and resources for students, parents and teachers as well as a gateway to the other Digital Citizenship education programs.

[eSmart](#) an initiative of the Alannah and Madeline Foundation, is an initiative designed to improve cybersafety and deal with cyberbullying and bullying.

[ACMA](#) the Australian Communications and Media Authority

[Smartcopying](#) provides an overview of the rights of access to and use of creative works such as text, artistic works, music, computer programs, sound recordings and films as contained in the Commonwealth *Copyright Act 1968* (Copyright Act).

Student Acceptable Use of Technology Agreement (Stage 2 - 6)

This agreement applies when CEDB devices and services are being used anytime.

I will:

- demonstrate at all times a Christ Centred respect for the dignity of each person
- use digital devices and services appropriately in my interactions with others
- provide access to devices as requested by CEDB staff
- respect others and communicate with them in a supportive manner
- protect my privacy and the privacy of others
- talk to a teacher or a trusted adult if I personally feel uncomfortable or unsafe online
- talk to a teacher or a trusted adult if I see others participating in inappropriate behaviours
- carefully consider the content that I upload or post online
- seek explanation from a trusted adult if unsure of terms and conditions of use
- abide by copyright and intellectual property regulations
- only download permitted items
- report lost or stolen devices and immediately change passwords.

We have discussed, understand, and agree to comply with the Student Acceptable Use of Technology Policy. We understand that there are actions and consequences for not following this Policy.
